Mr Clive Hawkes  
Quantum Bunbury  
Leschenault Drive  
North Shore  
BUNBURY WA 6230

Dear Clive,

We have successfully evaluated and proven the effectiveness of DMI-65 water filtration media in reducing manganese and iron levels in water. Based on the results of an independent assessment, we have been given approval by Coca-Cola Australia to use the media in one of our water plants so that further evaluation can be done.

Yours sincerely

Wayne Hage  
Group Technical Manager
